### Fighting Fraud with Forensic AI: How to Test Performance

Financial institutions have it down when it comes to check processing, posting, automation, and IT. However, when it comes to check fraud prevention, many live in fear. Why? Because they either have outdated solutions, or they are "rolling the dice" and hoping for a good result. But, of course, this isn't Vegas. And, to put it another way: Would you forgo insurance on your home?...
