

OrboNation Newsletter: The Best 2022 Articles on Check Payments and Fraud

BAI: Majority of Banks See Checks as Biggest 1st & 3rd Party Fraud Concern

The latest **BAI Deep Dive** takes on **"The fraud prevention balancing act: protection vs friction."** Much of the discussion involves changes seen in fraud prevention techniques as consumer attitudes and expectations have evolved and changed in the face of new technology and the pandemic.

Guests for the discussion are:

- Jen Martin, Head of Enterprise Fraud Services at KeyBank
- Kevin Sanchez, Senior Vice President of Digital Financial Crimes at US Bank
- Karl Dahlgren, Managing Director of Research at BAI
- Holly Hughes, Chief Marketing Officer at BAI

Did EMV Start the Check Fraud Pandemic?

EMV cards have much to tout when it comes to security and fraud prevention. EMV fraud prevention technology is a fraud detection tool which uses tokenization technology to transmit one-time-use encrypted information in place of cardholder data. The cardholder's data is never transmitted, so it is much...
