

Kinections26

Conference Agenda

The Future of Banking, Brought to Life

Kinections26 is a uniquely curated event, designed to cut through the smoke and mirrors of an AI-hyped era and give you purposeful, practical ways to harness this technology revolution. This is where Intelligent Banking takes shape, powering more personalized consumer experiences, sharper business decisions, and new levels of efficiency that simply weren't possible until now.

Our agenda is organized around six focused practice areas that are top of mind for banks and credit unions alike:

- 1 Lending
- 2 Security & Fraud Prevention
- 3 Deposits
- 4 Profitability
- 5 Cash Management
- 6 Mergers & Acquisitions

Each practice area opens with a General Session exploring the strategic forces challenging financial institutions today and how Intelligent Banking is reshaping the response. From there, engaging breakout sessions bring you into the room with your peers and industry experts to see how institutions like yours are solving their challenges right now, with real tools, proven technology, and the best practices emerging across the industry.

In addition, we are pleased to announce that the OrboGraph Innovation Conference and OrboGraph Check Fraud Roundtable will be part of K26. OrboGraph clients and partner will be able to see how the power of Kinective and OrboGraph will drive innovations in check fraud detection, check processing, payment modernization, AI-driven automation, and financial technology.

To complete your journey, the Experience Center invites you to explore the latest innovations and solutions from Kinective, OrboGraph, and other industry partners, providing hands-on access to technologies that are transforming banking operations, fraud prevention, and customer experiences.

From the opening keynote to the closing gala, every moment is built to send your team home with the innovations, expertise, and confidence to unlock the real potential of your institution. Combined with the insights gained through the OrboGraph Innovation Conference and Check Fraud Roundtable, Kinections26 delivers a comprehensive experience designed to **help financial institutions navigate a new era of technology, payments, fraud prevention, and service within their communities.**

DAY ONE

Sunday | November 15, 2026

1PM-6PM | REGISTRATION

7PM-830PM | WELCOME RECEPTION

DAY TWO

Monday | November 16, 2026

CONFERENCE AGENDA

7AM | BREAKFAST

8AM | GENERAL SESSION 1

Executive Keynote

Stephen Baker (CEO, Kinective) & Dan Snyder (EVP of Products, Kinective)

9AM | GENERAL SESSION 2

Guest Keynote

Heather McGowan, noted Forbes Futurist, draws from her experience launching 25 pioneering products, creating an award-winning innovation curriculum that reimagined higher education, authoring three books on thriving through change, and advising some of the world's leading organizations, she has developed frameworks that transform how organizations think, collaborate, and activate potential.

945AM | EXPERIENCE CENTER

Visit with Sponsors and Kinective during this focused break period

1030AM | GENERAL SESSION 3

What's Going On in Banking

Watch for further details to be announced soon

GENERAL SESSION 4 Lending

Speed to Close: Overcoming the Technology Gap in Lending

Despite the rapid adoption of technology, 47% of financial institutions still cite a lack of technology automation as their top challenge in lending. In this session, we'll discuss how FIs can outcompete major national institutions & non-traditional lenders with hyper-efficient, data-driven automation to achieve lower costs & higher margins.

1215PM | NETWORKING LUNCH

GENERAL SESSION 5 Security & Fraud Prevention

Beyond Reactive: Moving to Real-Time, Multi-Channel Fraud Prevention

The fraud landscape has fundamentally shifted. Check fraud attempts have tripled as fraudsters deploy AI to mass-produce counterfeits at scale. Manual review can't keep pace. This session explores how institutions are moving from reactive triage to real-time, multi-channel prevention to flag suspicious accounts before losses occur.

GENERAL SESSION 6 Deposits

Your Competitive Edge: Turning Siloed Data Into Deposit Growth

In an era where competitors are aggressively siphoning away balances, community FIs must move past reactive service. This session explores how to anticipate consumer needs before they shop elsewhere, achieving faster account openings, higher deposit balances, and deeper relationships through predictive intelligence. Reclaim your competitive edge and drive deposit growth through timely, personalized interactions, not rate wars.

230PM | BREAK

Select one (1) of the following breakouts:

BREAKOUT SESSION 1 Lending

Application to Archive:

Your Guide to an Automated Lending Workflow

Learn how Kinective is transforming lending from a manual, human-gated process into an automated engine that achieves full digital document journeys and real-time pipeline visibility.

BREAKOUT SESSION 2 Security & Fraud Prevention

The Secure Perimeter:

Reducing check & transaction fraud losses

Reduce fraud losses while lowering false positive rates to reduce friction for good customers with Kinective's suite of check & fraud AI technology. In this breakout, we'll showcase how our industry-leading core & system connectivity can flag suspicious accounts before losses occur.

BREAKOUT SESSION 3 Deposits

Seconds to Open:

Creating a Frictionless Account Opening Experience

Discover how Kinective is providing institutions a 360° view of their consumers, enabling them to move from reacting to consumer needs and start anticipating them with predictive, next-best offers with seamless, digital-to-branch workflows that drive new account openings and deposit growth.

730AM NETWORKING BREAKFAST

830AM GENERAL SESSION 7

Industry Perspective: AI in Banking

Watch for further details to be announced soon

OrboGraph Innovation Conference

Security & Fraud Prevention

930AM

Explore the latest advancements across OrboGraph's solutions including AI-powered fraud detection, intelligent automation, payment modernization, and check processing technologies, while providing insight into the company's product roadmap and strategic vision.

1015AM EXPERIENCE CENTER

Visit with Sponsors and Kinective during this focused break period

OrboGraph Check Fraud Roundtable

Security & Fraud Prevention

11AM

Join fellow fraud and industry experts to discuss the latest check fraud trends, innovations for check fraud detection, and how intelligent banking will transform the future of fraud detection.

12PM NETWORKING LUNCH

GENERAL SESSION 10

Mergers & Acquisitions

**The Integration Blueprint:
Accelerating Merger Timelines**

1PM

Mergers often stall due to data inertia and disconnected systems. This session explores how to maintain a seamless consumer experience through the transition by creating a unified layer that sits above disparate cores, ensuring your institution remains nimble during the reconstruction.

145PM BREAK

Select one (1) of the following breakouts:

BREAKOUT SESSION 4

Profitability

The Profitability Engine: Activating Relationship Intelligence

Elevate your ability to identify consumer risk and opportunity with intelligence-based insights. We'll demonstrate how our platform auto-assigns outreach tasks for your highest-value consumers, ensuring staff is focused on the individuals with the highest chance of driving margin, whether through retention or strategic upselling.

BREAKOUT SESSION 5

Cash Management

The Cash Orchestrator: Real-Time Intelligence in Action

2PM

Turn your cash operations into a hyper-efficient engine that reduces holding costs and prevents downtime weeks before it happens. We'll demonstrate how predictive modeling helps to minimize cash-out events and provide device technicians with AI-generated diagnostics to ensure a first-visit fix rate.

BREAKOUT SESSION 6

Mergers & Acquisitions

**The Seamless Switch:
Maintaining Consumer Continuity Through Consolidation**

Experience a technical deep-dive into how Kinective normalizes data and connections across merging institutions, ensuring that account and document histories remain accessible from the moment the merger is announced and consumers' journeys never restart even as their data moves to a new core.
